PROFESSIONAL SUMMARY

Results-driven MERN Stack Developer with nearly 3 years of experience building scalable SaaS platforms, AI-driven products, and modern web applications. Skilled in JavaScript, React, Node.js, MongoDB, and AWS, with expertise in LLM integration, Retrieval-Augmented Generation (RAG), and Generative AI. Proven track record of optimizing performance, leading junior developers, and collaborating with SMEs to deliver high-impact solutions in Agile environments.

SKILLS

- **Programming Language:** JavaScript (ES6+), TypeScript
- **Frontend:** React, Redux, HTML5, CSS3, Bootstrap, Antd, MUI
- **Backend:** Node.js, Express.js, WebSocket, AWS S3, AWS Bedrock, JWT
- **AI & NLP:** LLMs (Claude, Bedrock, OpenAI), RAG pipelines (Hybrid Search)
- **Databases:** MongoDB, AWS OpenSearch
- **Other tools:** Postman, Git, Jira, Jenkins

EXPERIENCE

Senior Product Engineer, ESG Data & Solutions

April 2023 -Present

- Built a robust RAG pipeline with MongoDB, reducing document analysis time by 60%.
- Integrated LLMs using AWS Bedrock for ESG data extraction and summarization, cutting manual effort by 50%.
- Developed scalable RESTful APIs and integrated third-party services to expand system functionality.
- Mentored junior developers through code reviews, knowledge sharing, and technical guidance.
- Conducted Level Two QC to enhance data accuracy, providing crucial feedback to analysts for quality control.

Software Developer, Sprite Software

July 2022 - December 2022

- Worked on front-end projects using React.js, delivering responsive and user-friendly interfaces.
- Collaborated with design and backend teams to ensure seamless integration and functionality.
- Maintained code quality and performance through rigorous testing and debugging.

PROJECTS

Custom AI Chatbot with RAG

- Built an intelligent chatbot that scrapes content from URLs and stores data as vector embeddings in Astra DB.
- Integrated OpenAI for embedding generation and real-time responses using Retrieval-Augmented Generation (RAG).
- Delivered a robust full-stack solution using Next.js and TypeScript.

Netflix Clone

- Developed a Netflix-inspired web application with React, featuring dynamic movie listings and authentication.
- Implemented responsive UI with categorized content and rich metadata for an engaging user experience.

AWARDS & ACHIEVEMENTS

- **Rising Star Award, ESG Data & Solutions** - Recognized for exceptional contributions to the development team.
- **Product Pioneer Award, ESG Data & Solutions** - Recognized for pioneering work on a new product launch.

CERTIFICATIONS

- MERN STACK Development
- The OWASP API 2023 Top 10

EDUCATION

Bachelor of Business Administration

June 2019 -May 2022

Sathyabama Institute of Science and Technology
